EXPERIENCE

Back-end Developer   2018 Sep - Present
AndSystems Tech LLC | Location, Ulaanbaatar Mongolia
Developed and maintained various features for LendMN startup primarily using PHP, JavaScript, MySQL, Python

Key Accomplishments:
- One of the lead developers to migrate **monolithic** system to **micro-service** based system
- Built and shipped a fully functioning e-commerce platform using API Platform and PHP.

EDUCATION

University of Massachusetts Lowell, Lowell, Massachusetts | Bachelor of Science in Computer Science   May. 2018

PROJECTS

Personal portfolio 1.0

Built and maintained the very first version of my personal portfolio using React, NodeJS and Express.

QR authenticator system using socket server

Built an authenticator system where a customer can login by scanning a generated QR code on web browser using NodeJS and SocketIO

E-commerce web application

Created and deployed a fully functioning e-commerce web application from scratch using Symfony and MySQL and AWS

Social network for local high school alumni

Created and deployed a fully functioning social network from scratch using Symfony and MySQL and DigitalOcean

Developed a food recognition app (DeepFoods 1.0)

Created an Android app that takes pictures and uploads them to PaperSpace instance where we trained our Tensorflow (Mask R-CNN architecture) model which recognizes food from the given image in my senior year.

Created a 2D Shooter Game

Created a 2d side scrolling shooter game (similar to the game "contra") using a funny language called Racket in my junior year.

SKILLS

Programming Languages:
- PHP, JavaScript, Python, Java, C++, C, Racket

Libraries and Frameworks:
- Symfony, API-Platform, React, Laravel, jQuery, Node.js, Express

Tools and Platforms:
- Git, Docker, AWS, Firebase, DigitalOcean, Heroku, Django, Emacs,

DISCTINCTIONS

- **Strong problem solving skills**
- **Hard worker, committed to meeting deadlines and timely shift for work**
- **Fluent both in written and spoken English**

CERTIFICATES

- **AWS Cloud Practitioner, Oct 2020**
